

# The EOOSC Observatory

## EOOSC Future Open Days on 24 November 2021

Gareth O'Neill (Technopolis Group)  
Natalia Manola (OpenAIRE)

The EOOSC Future project is co-funded by the  
European Union Horizon Programme call  
INFRAEOOSC-03-2020, Grant Agreement 101017536

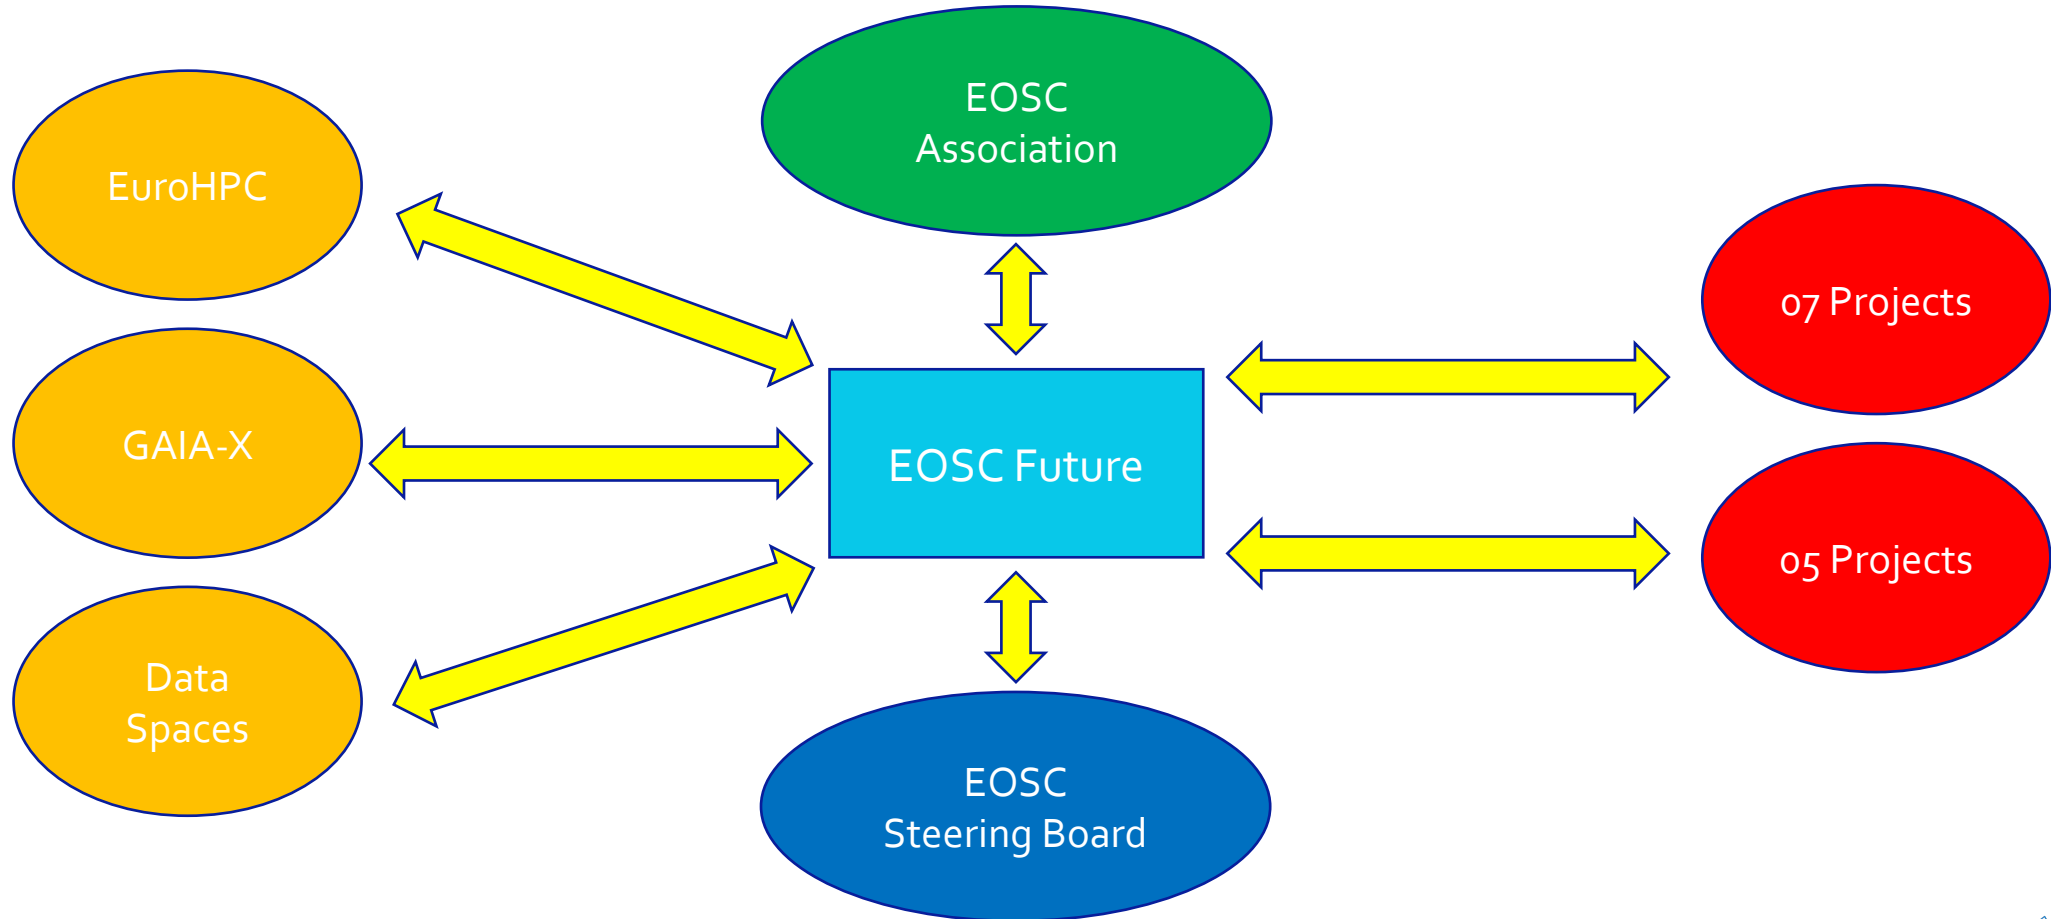

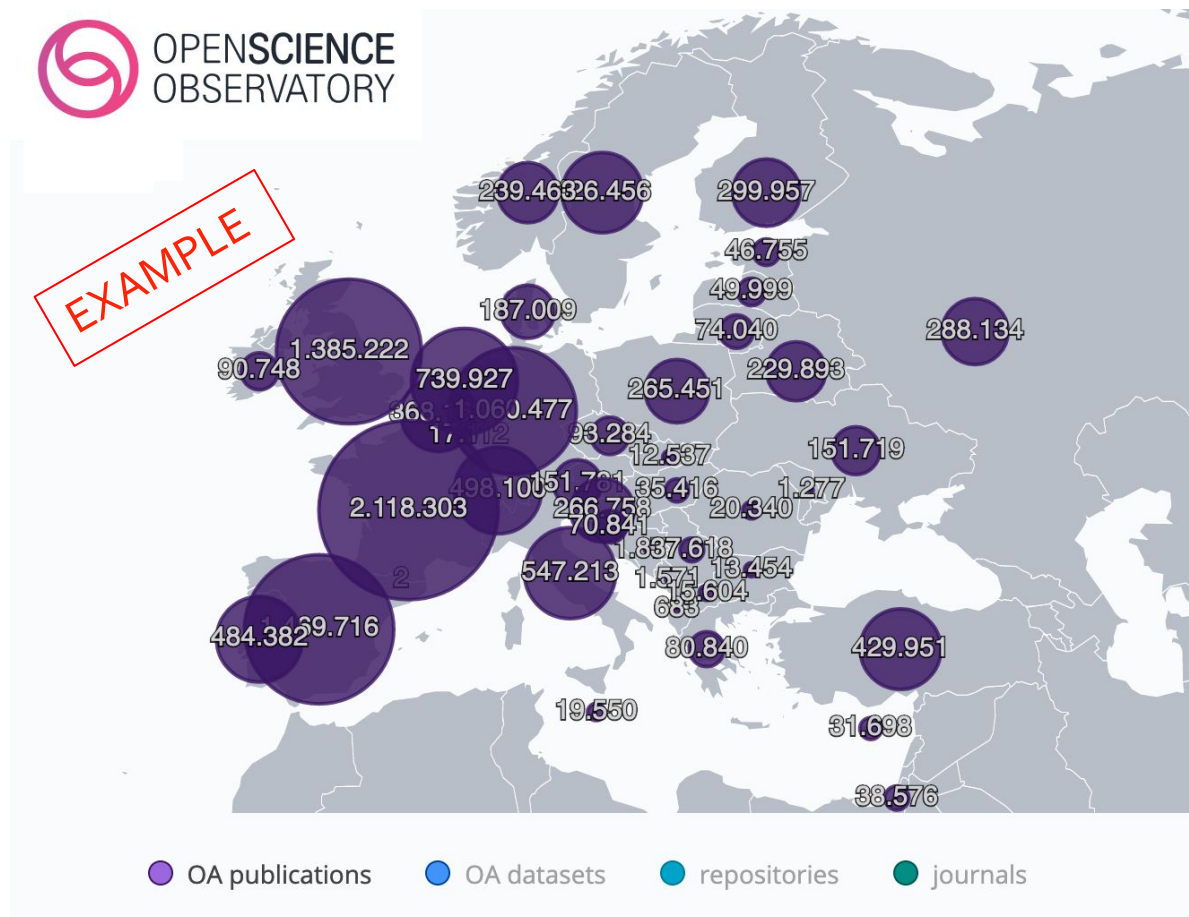

# EOSC Future

- Horizon 2020 INFRAEOSC-03-2020: Integration and consolidation of the existing pan-European access mechanism to public research infrastructures and commercial services through the EOSC Portal
- EOSC Future will integrate, consolidate, and connect existing e-infrastructures, research communities, and initiatives in Open Science to further develop the EOSC Portal, EOSC-Core, and EOSC-Exchange of the European Open Science Cloud (EOSC)
- EOSC Future will take a user-driven co-designed approach and strategically align with key stakeholders in the EOSC ecosystem

# Alignment with EOSC Ecosystem

# Monitoring and Policy Intelligence Tool

- Interactive dashboard for monitoring EOSC readiness of EU MS/AC and activities and in-kind contributions to the EOSC Partnership
- Track policies, infrastructure, data, and services for EOSC
- Support EOSC Partnership engaging EOSC Association and EOSC Steering Board

# Building on Existing Work and Projects

 EOSCsecretariat.eu  
Setup and management of the EOSC Secretariat supporting the EOSC Governance

**WORKING TOGETHER FOR THE REALISATION OF EOSC**  
**The InfraEOSC 05 Collaboration Agreement**

 EOSC  
NORDIC

 EOSC SYNERGY

 FAIRSFAR  
Fostering Fair Data Practices in Europe

 NIXOS  
National Initiatives for Open Science in Europe

 ExPaNDS

 EOSC-Pillar  
Coordination and dissemination of National & Thematic Initiatives to support EOSC

- Build on recommendations of EOSC Executive Board Working Group Landscape
- Develop survey questions and indicators to monitor EOSC readiness of MS/AC
- Develop and prototype a dashboard to test survey questions and indicators

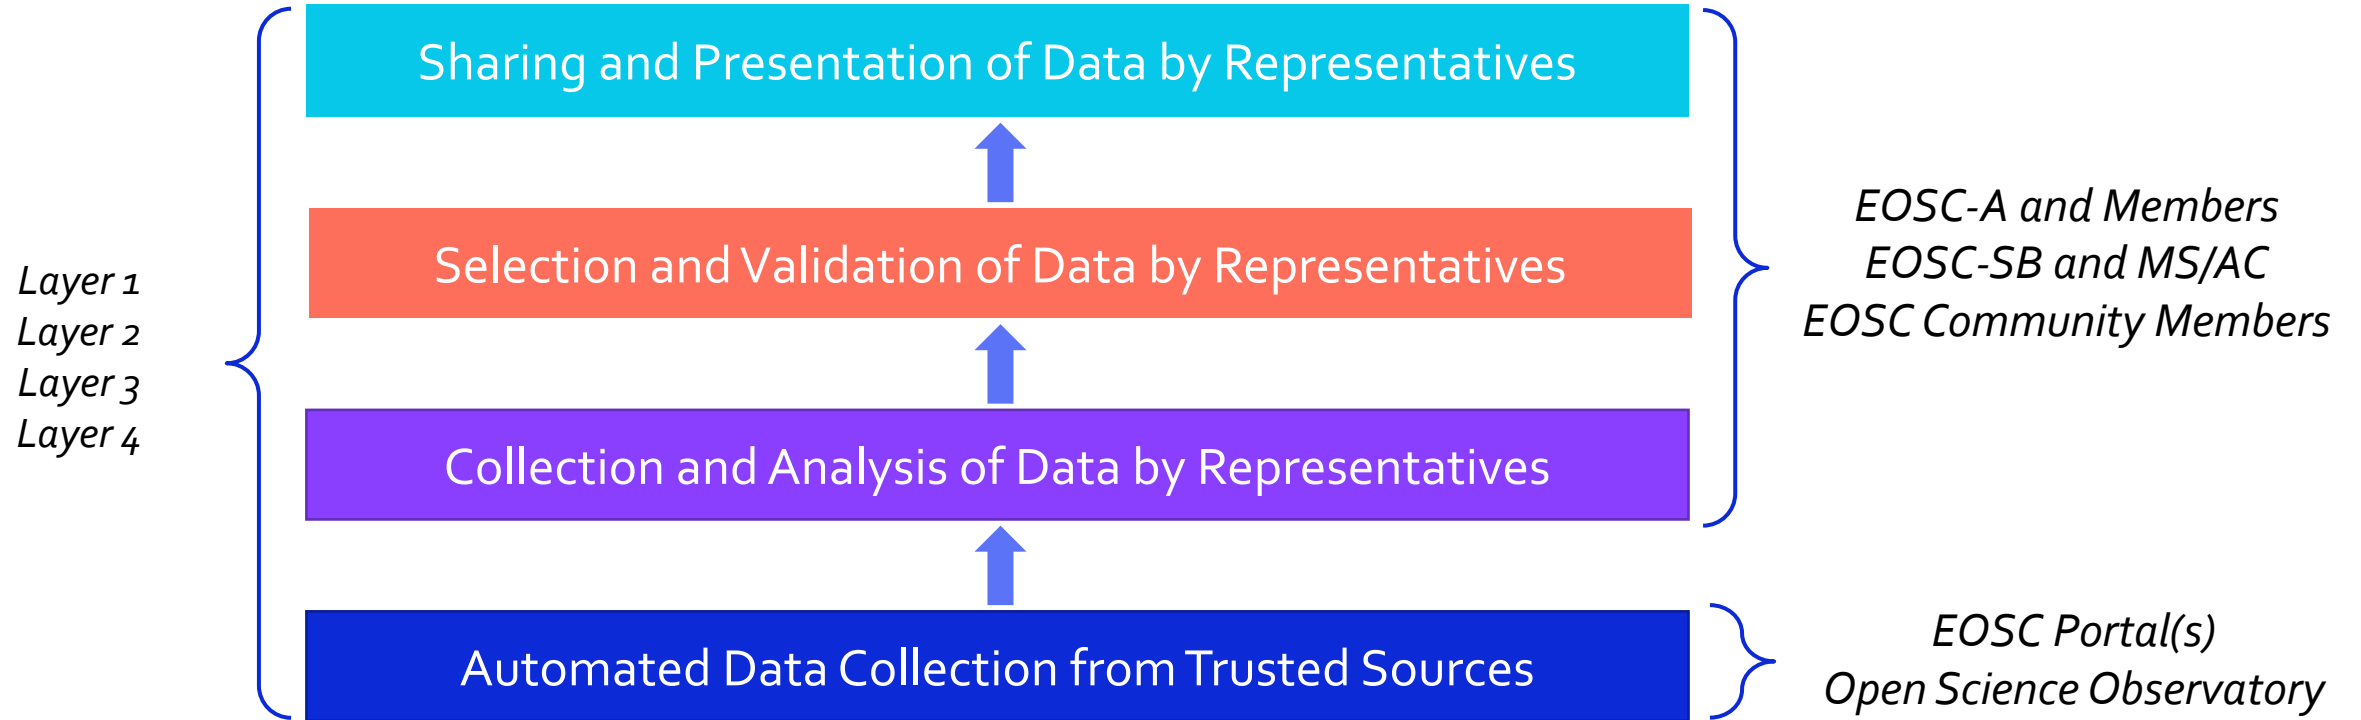

# Observatory Layers

**Figure:**  
Four Possible Layers of Data for EOSC Observatory to Collect for EOSC Monitoring

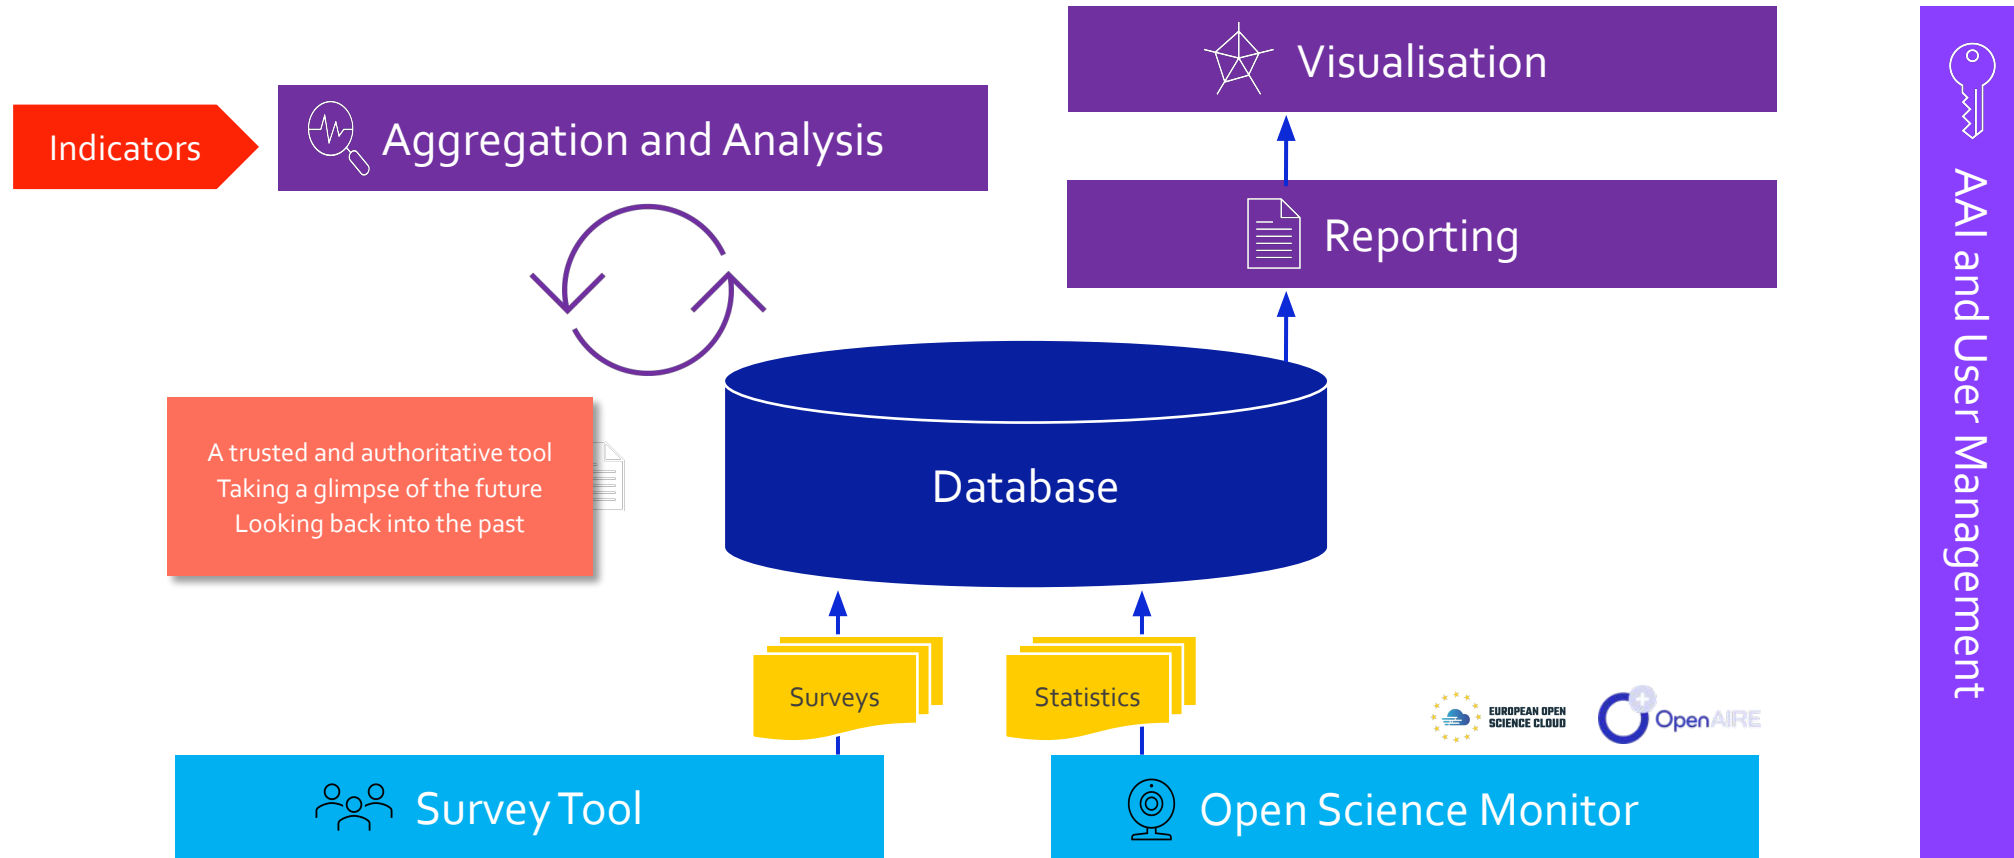

**Data:**  
The aim is to collect data where available automatically from trusted data sources and where not available manually from assigned representatives. Quantitative data should be provided with qualitative descriptions that further frame and explain the numeric data

- Legend:**
- Layer 1: Validated by MS/AC & EOSC-SB
  - Layer 2: Validated by Members & EOSC-A
  - Layer 3: Validated by Members & EOSC-A
  - Layer 4: Shared by the EOSC Community

# Methodological Approach

# Observatory Architecture

# Types of Indicators

**POLICIES**

.....

Strategies and policies under discussion / implemented / adopted  
Cover different policy areas:  
OA to publications, RDM, open software, Citizen Science, training, etc.

**01**

**PRACTICES**

.....

Capture progress in OS practices:  
# repositories, # certification schemes, # OA publications, # open/ FAIR datasets,

**02**

**IMPACT**

.....

Impact of EOSC, its policies & practices  
Uptake  
Reproducibility  
Research efficiency and effectiveness

→ Need for indicators

**03**

Country and/or organisation level

# Implementation Timeline

Landscape Analysis

Q3 2021

Dashboard Testing

Q2 2022

Dashboard Development

Q1 2022

Observatory Roll-Out

Q1 2023
