

# Opportunities for European Research Infrastructures & Commercial Cloud Services under EOOSC – Call for Proposals

Dave Heyns (GÉANT)

Monique Pellinkhof (GÉANT)

September 26, 2022

The EOOSC Future project is co-funded by the European Union Horizon Programme call INFRAEOOSC-03-2020, Grant Agreement 101017536

# Call 1 - European Research e-Infrastructures – Distribution of Commercial Cloud Services

T8.1

1. Targeting OCRE Framework contract holders collaborating with **Non-profit European Research (and Education) e-Infrastructure Partnerships and Collaborations** (for example, NREN's, ERIC's, E-Infra's)

€2M

2. Market driven – based on the OCRE proven concept  
❖ Final OCRE call yielded more than 2X adoption funds  
number of very compelling, innovative collaborations

Pre-engagement with these entities so that we can provide a list to eligible collaboration partners to the suppliers in the call \*\*

3. Commercial cloud services (eg compute and storage)  
1. Available via EOSC (Registered on the EOSC marketplace)

1. Pre-agreed upon **Minimum Requirements and Awarding Criteria**
2. **Oversight** and support of scoring, ranking and awarding of proposals

away that is monitored, regulated, and free

horizontal services

ward beyond the PoC

operability framework (AAI/service reg)

GO FAIR

4. Under the **oversight** of the EOSC Future Grant Committee

# Call 1 - OCRE CLOUD services resellers/Research e-Infrastructures

T8.1

## Awards of up to €300,000- for demonstrating the distribution of commercial cloud services via the EOSC

Planning

### Minimum requirements:

1. Bidder must be able to provide Single Purpose Voucher (and EU VAT)
2. Bidder's T&Cs applicable/acceptable to aggregator (call-off contract)
3. Supplier may not inflate pricing (OCRE concessions applied)
4. Aggregator must register funded services on EOSC Marketplace

<https://wiki.eoscfuture.eu/display/PUBLIC/EOSC+Portal+Onboarding+Process>

### Awarding criteria:

1. Demonstration of Service Distribution Mechanism (EOSC Rules of Participation)
2. Plan (and feasibility) – Roles; Responsibilities; Timeline
3. Sustainability – Mechanism; Top-up funding; Researcher access
4. Value for money (bidder/aggregator investment)

- Publish end September 2022
- Facilitate Q&A end October
- Deadline submitting Proposals end November
- Scoring and awarding December
- December 2022 standstill and start Projects
- January 2023 provide input on outcomes for EC report

<https://www.negometrix.com>

# Call 1 – Research Infrastructure/OCRE Supplier relationship

T8.1

## Getting in touch -

OCRE Cloud Catalogue –

<https://www.ocre-project.eu/services/cloud-suppliers>

1. Identify local supplier of choice in your country of registration (contact details listed)
2. Reach out with your concept

OR

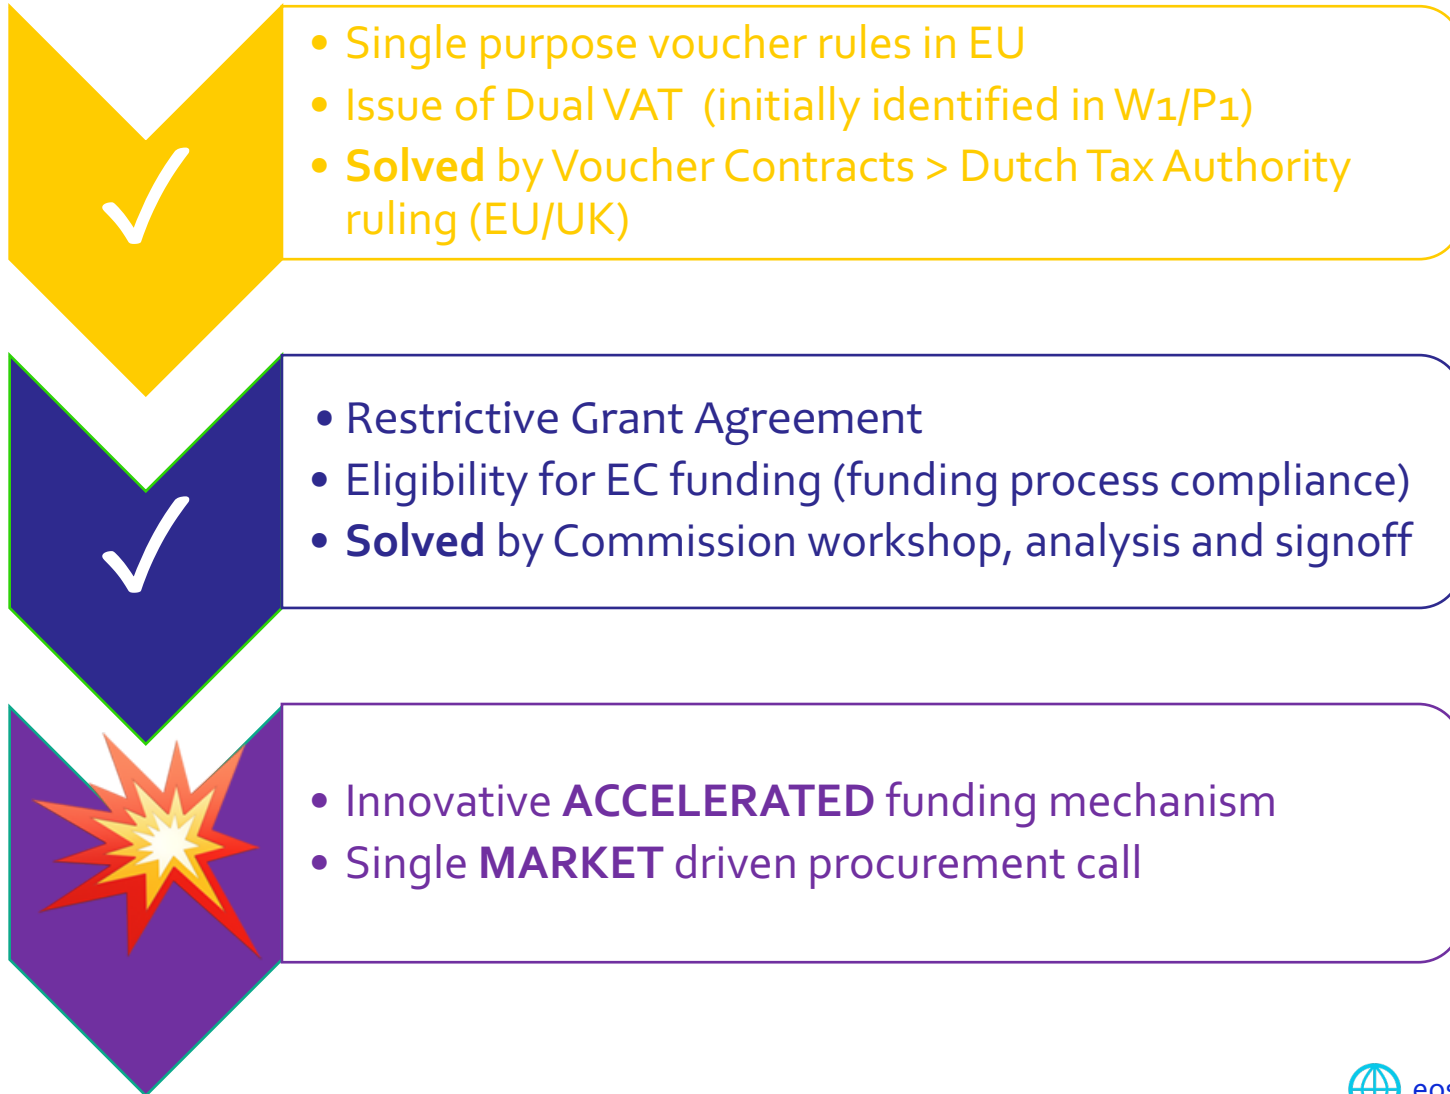

Register your interest in participating and EOSC Future will make a list of interested Research Infrastructures available to the suppliers on request

[https://eoscfuture.eu/?post\\_type=newsfuture&p=1317&preview=true&\\_thumbnail\\_id=705](https://eoscfuture.eu/?post_type=newsfuture&p=1317&preview=true&_thumbnail_id=705)

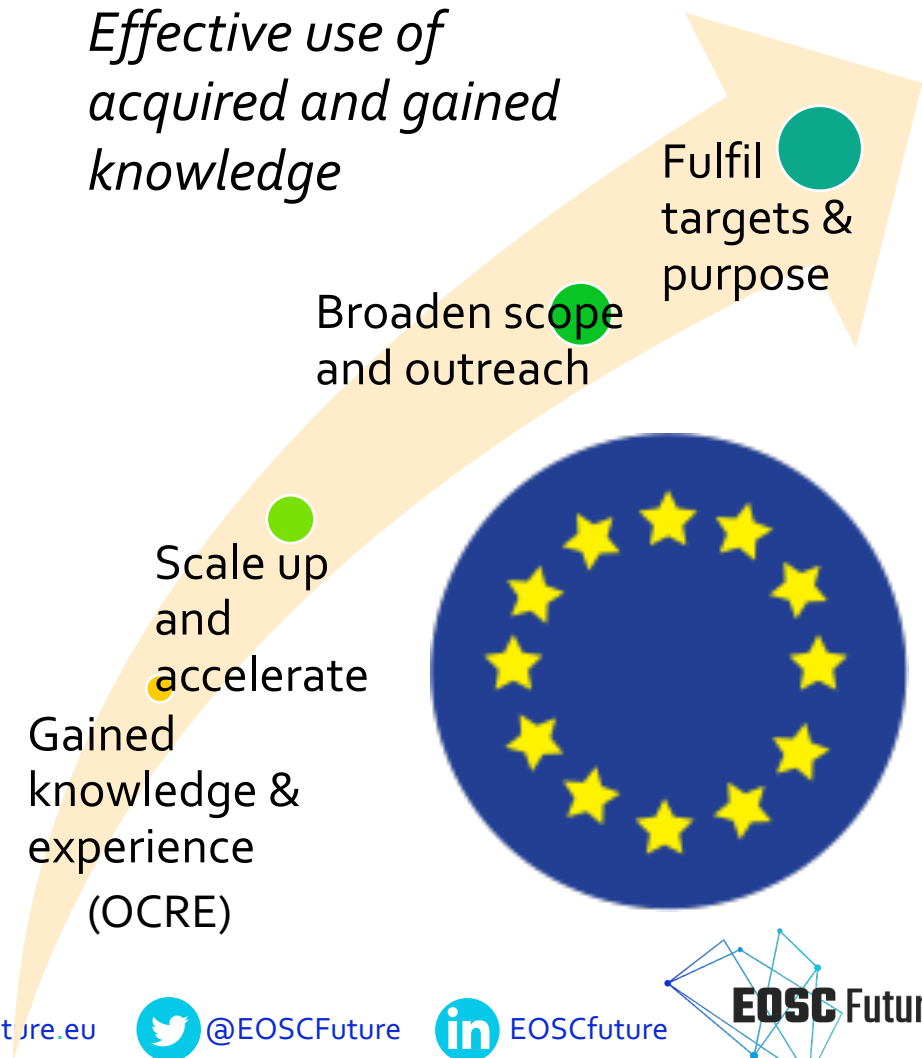

# Procurement – Lessons Learned and Best Practice

T8.1

*Effective use of acquired and gained knowledge*

# EOSC Aggregator function outreach

T8.1

Distributing to the European research community (including the long tail of science)

# Main differences with the OCRE mini-competition

T8.1

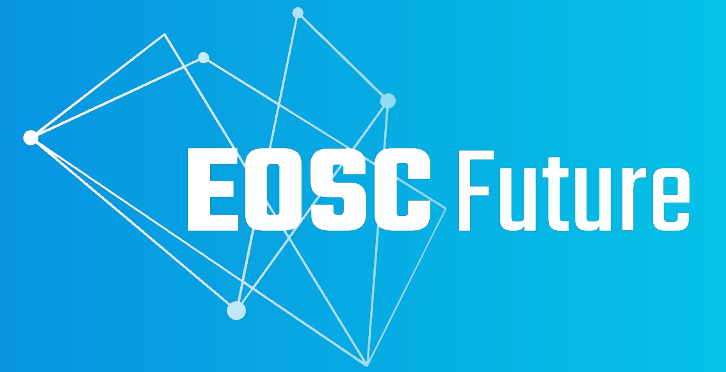

## Cooperation with Aggregator

Focus on distribution mechanism

## Distribution in full and FOC through the aggregator

Aggregator as channel to wider R&E community

- CoC between OCRE Framework contract holder and Aggregator
- Letter of Support of Aggregator
- No pric sheet: budget and quotation in awarding criteria "Best Value" – focussing on suppliers contribution
- Plan of Action demonstrating the distribution mechanism
- Awarding sustainability of the distribution mechanism
- Benefits of the Cloud for wider R&E community

# Thank you for your attention
